1 Introduction

The website www.myrcm.ch of Aebit RC Progress offers interesting services for every rc-car enthusiast. You will find here a extensive result-database. The results of much races, which are run with RCM Server - the ultamte timekeeping software for rc-car-races - worldwide, are accessible for the public. The very high numbers of access to MyRCM show, that this service is very popular with the drivers. Further on you can fill in your entry for a race on MyRCM. This service is used by many clubs using RCM Server for time keeping.

Besides of all this www.myrcm.ch offers a special service at several races: Online Streaming. This means, that you see the same screen in internet, you see normally on a monitor in the pit or drivers area on a race. This allows to keep anybody worldwide informed about the racing on the track.

2 Preparations

Just enter the URL http://www.myrcm.ch in you internet browser and you reach the welcome screen of MyRCM. To use this service there is no registration and/or login necessary. You can select the language by clicking on the appropriate flag in the upper left corner.

2.1 Basics of the Operation

In the upper right corner you can enter a search word. Please note, that the search is limited to the item where you just are.

Results 1 - 15 from 682

Is a table is divided into more than one pages, you can scroll through the pages by clicking on the "Back", "Next" or on one of the page numbers below of the table. By clicking in the headline of a column of the table, the table will be sorted by this column. Clicking again will reverse the sorting order. The sorting order (ascending or descending) is indicated by a small arrow in the Headline of a column.
